

### Local Man Escapes Injury in Accident

Although two others were injured, Benny Flores, 33, of 1618 West 215th street, escaped injury when his car collided with another car at Normandie avenue and Carson street January 17.

Suffering minor injuries were Lucille Delgado, 24, and Rosvill C. Reaser, 50, of 1210 Pacific Coast Highway, both passengers in a car driven by Octavio H. Delgado, 40, of 1026 Pacific Coast Highway.

**NEW BUS TERMINAL**  
... Ready By End of March

### Torrance Bus Terminal Ready March 29

Torrance's new bus terminal will be ready for use by March 29, Charley Gotts announced yesterday.

The ticket office, waiting room and snack bar at 1625 Cabrillo avenue, next door to Daniels cafe, will be open for all scheduled bus runs.

The 68 by 100 foot terminal parking lot for busses next to the waiting room will be blacktopped soon and the walls of the waiting room are now up, Charley said. Cushioned benches for 30 persons will be installed next month.

The ticket office and snack bar will be operated by Gotts.

### Entrance Exams January 30 At El Camino

Qualification tests for students entering El Camino College next month have been scheduled for January 30.

The English placement test, required of all students who have not completed college work in English, will be given at the college at 9 a.m., 2 p.m., and 8 p.m.

Students expecting to enroll in Chemistry 1A or Mathematics A are required to take the qualification tests scheduled for 2 p.m. and 7 p.m.

New students will register for the spring semester on February 1, beginning at 8 a.m. Classes begin February 2.

### JURY FINDS THEATER MANAGER NOT GUILTY

A jury of six men and six women found Howard H. Lander, local theater manager, not guilty on a child molesting charge in the City Court Monday afternoon.

Lander, manager of the Torrance Theater, had been accused of the charge by the parents of an 11-year-old girl who claimed Lander molested her while attending the theater.

Character witnesses and a defense presented by Attorney Albert Isen led to a not guilty verdict reached by the jury in 11 minutes on the first ballot.

Lander based his defense on the contradicting statements of the alleged victim and a witness—a ten year old girl friend of the complaining witness. He presented 10 character witnesses who testified on his behalf.

The case was tried before City Judge Otto E. Willett.

The prosecution was handled by Benton T. McNary, a deputy district attorney and resident of Seaside Ranchos. McNary substituted for City Attorney C. Douglass Smith who is ill.

Beverly Smith, purchasing agent for the National Supply Company, was foreman of the jury. Other jury members included: Mrs. Vivian J. Niles, Mrs. Phyrne Laughon, Mrs. Annie Ferovich, Mrs. Dorothy Hatfield, Mrs. Juanita N. McNew, Mrs. Dolores McVicar, O. Z. Draie, Frank Stevens, James D. Mitchell, John E. Jones, and Edward Blackwood.

Three of those called for jury duty disqualified themselves on the grounds they knew the defendant personally.

Attorney Isen praised the jury for the manner in which they received the case.

"The jury is to be commended for considering the case on its own merits and not by a wave of public opinion which might have done great harm to an innocent man," Isen said.

### Worker Foggy About Blow In Fog

It was so foggy last Saturday morning that John Robert Taylor still can't figure whether he was struck by a car or an individual. But a large lump on his head still reminds him he was hit.

The thirty-seven-year-old air-craft worker, who lives at the Torrance flight strip, told police he had just stepped off a curb on Narbonne avenue near 229th street about 4 a.m. when the black fog got even blacker and the next thing he knew it was 6:45 a.m. and a police officer was bending over him. His wallet, emptied of about \$46, was lying ten feet away from him.

Examination at Harbor General Hospital, revealed that a bruise on his face, and the lump, were his only injuries, but they were painful.

### Gwyn Gets Diploma

Paul Gwyn, 1225 1/2 Acacia avenue, will receive his diploma in business administration with 200 other graduates this week in Compton College's twenty-first annual mid-year commencement. Dr. Scott Thompson, president of the college, announced today.

### NEW ADULT CLASSES START JANUARY 30

A beginning social dancing class as well as beginning square dancing classes are among the subjects added to the new curriculum of the Torrance School of Adult Education, according to Donald Manashaw, director.

Opening date of the spring semester will be Monday, January 30, Manashaw said.

Seaside Elementary School in Seaside Ranchos will start two classes—square dancing, and ceramics. WALTERIA Recreation Hall will start a day sewing class. A night lampshade class will be added at the Torrance High School, and a day class for expectant mothers will be held at the Episcopal church.

Additional emphasis will be placed on the business training subjects, shorthand and typing. Both classes will work together and will feature short lectures from time to time on such subjects as business English, grammar, and punctuation.

Classes are free and are open to all adults regardless of residence. Students should go directly to class to register. For further information telephone Torrance 645.

Following is a schedule of classes for the Spring semester:

Subject	Night	Time	Room	Instructor
Ceramics	M-W-Th	6:45-9:45	207	Instlee
Ceramics	Tu	7:00-10:00	Seaside El.	Instlee

Lampshades	M	9:00-12:00	Epis. Ch.	LeMenager
Rugmaking	W	9:00-12:00	M.E. Ch.	Johnson

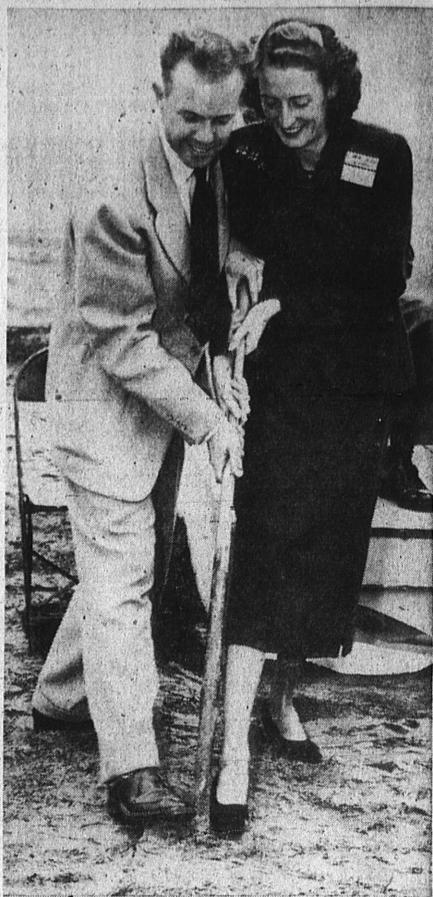

### El Camino To Improve 10-Acre County Site

El Camino College in Alondra Park will be improved with a further ten acres lying northeast of the present college property to the east of the Dominguez Drainage Channel, according to report from Supervisor Raymond V. Darby.

The Board of Supervisors last week authorized preparation of an agreement similar to that of the original agreement—leasing 80 acres to the College for its present site. Under this new agreement, Darby said, the county will transfer ownership of the ten acres to the college, in return the college will improve the land and permit public use of the improved area when not in use by the college. The improvements must cost not less than \$30,000, the appraised value of the land.

El Camino College authorities revealed that a picnic area is planned with barbecue pits and tables so that the students may eat their lunches with comfort and ease.

Supervisor Darby added that the Parks and Recreation Department had originally planned this area for adult recreation.

**GROUND BREAKING**... Delmar Gilkeson, of Lomita, president of El Camino College student body, throws his weight with Virginia Piffner, vice-president of the student body, in digging the first shovelful of dirt in ground breaking ceremonies for the new \$414,000 student union building at the college.

### Ground Broken For New Student Union Building

Ground was broken for the new \$414,000 student union building at El Camino College this week with student representatives from nearby schools as guests of honor.

Ronnie Higgins represented Torrance High School. Also representing Torrance was Charles V. Jones of the college board of trustees. Other schools represented include Santa Monica Junior College and Inglewood, Redondo Beach, Leuzinger, and Washington High Schools.

Forrest G. Murdock, president of the college, enumerated some of the many modern features of the building, which include a cafeteria and dining room seating 700 persons, a soda fountain with 30 stools, offices for student body officers, meeting rooms, a lounge and open-air patio.

The first soil was turned by Delmar Gilkeson, student body president of Lomita and Virginia Piffner, student body vice-president.

The building is the third of the permanent buildings to be erected on the three-year-old campus. It is expected to be completed by next September. An administration building is being planned as the next construction.

### Zoning Plan Start Seen

A new zoning plan for Seaside Ranchos and Hollywood Riviera will be undertaken soon, according to E. A. Lloyd, city planning consultant, in a report to the planning commission.

Lloyd said preparations of a new plan would not be complicated in that few revisions would be made in present uses of land in the area.

### Dimes Campaign To Be Extended

The March of Dimes, annual fund appeal of the National Foundation for Infantile Paralysis, will be extended for one month ending February 28, Mrs. Clara Vaughn, co-chairman of the local drive, announced this week.

Such extension was made necessary to meet a \$1,500,000 need by the county, March of Dimes chapter to continue aid to polio victims during 1950, they said.

Such care includes all medical, hospital, nursing, and other care needed by polio victims who cannot pay all or part.

During 1949 the March of Dimes spent \$1,375,000 for this type of care, the chairman reported. Basing a prediction on past yearly increases they said expenses could exceed \$2,000,000 if Los Angeles has another epidemic.

### Christmas Seal Results Told

Torrance residents purchased \$95.37 worth of Christmas Seals during the supplemental sales campaign, officials reported this week. Of this sum \$13.67 came from sales booths staffed by the committee of local women under the direction of Mrs. Albert Dumont, 2765 Arlington avenue, and \$81.72 from self-service merchandisers placed throughout the city by her group.

Kenneth A. Hartzell, president of the Combined Christmas Seal Fund of the Los Angeles county Tuberculosis and Health association, said that the total receipts for the county to date were more than \$370,000.

"Since many who received and used Christmas Seals have not yet paid for them," he said, "we are confident that we will more than reach our goal of \$500,000."

### Fog Blamed for Early Morning Auto Crash

Heavy early morning fog was blamed for an accident which occurred Friday morning at the intersection of 182nd street, and Western avenue, according to statements taken by the Torrance Police Department at the scene of the crash.

Involved in the accident, Sergeant Bill Evans reported, were the drivers of the two cars: Anthony M. Lewicki, USN of Long Beach, and Nathaniel W. Moore of Sah Pedro.

Treated at the Harbor General Hospital for minor injuries was W. Baumgartner, a passenger in Moore's auto.
